January 2019

Dear Friend of the Montgomery Historical Society,

Here's the latest update on an easy and cost free way for you to help us.

The MHS registered for the TD Bank Affinity Program (AP) in 2009. This program is used by the Bank to support civic groups and charities. Under this program TD Bank makes an annual donation to the Society if:

- a. at least 25% of our memberships (about 50) are account holders and designate the Society as their AP partner, and
- b. at least one additional checking account is added each year **or** the aggregated savings accounts increase by 1%. **Any additional TD account holders may designate the Society as their Affinity partner - they don't have to be MHS members.**

TD Bank donates a minimum of \$500 annually, and possibly more based on the average annual balances in those eligible accounts. In essence, the more money in these accounts, the more TD Bank will donate to the Society.

All information about participation and accounts is kept by TD Bank according to their privacy policies. None is shared with the Society. We will simply be told if we meet the eligibility criteria and, if so, be given \$500 or more at the end of the 12 month payment period running June-to- June.

We need to keep our Affinity numbers up if we are to remain eligible. If you are already our Affinity Program partner, thank you. You don't need to do anything to remain in the program. If you are not, please consider joining up. If you are already a TD Bank account holder, or are willing to open an account, and are willing to designate the Society as your Affinity partner please call or visit your nearest TD Bank branch. The MHS code is J6. Click here for more info:
